Fire District's Open Burning Policy Survey

The Fire District is soliciting public input on our current open burning enforcement practices to help shape its future Open Burning Policy. We are conducting a survey and would like to have as many District residents as possible participate in completing it. To date we have only had 350 responses. Our goal is 1,000 responses before September 1st. This Public Open Burning Survey is now on our homepage on our website at www.clackamasfire.com or the Fire Prevention/Open Burning homepage at www.clackamasfire.com/fireprevention.html. If you have any questions regarding the survey, please call our Fire Prevention Office at 503-742-2660.

Fire District's Outdoor Burn Ban

As of July 21st, Clackamas Fire District #1 has enacted a total outdoor burn ban, which will prohibit all outdoor burning, including all recreational fires within Clackamas Fire District #1. Response fees could be issued to violators during this ban. This burn ban is based on community fire safety needs and will continue until fire danger conditions improve. This ban will hopefully raise awareness and provide educational opportunities for all of our citizens and visitors within Clackamas Fire District #1.

Congratulations to Our Latest Graduates

Deputy Fire Marshal, Kari Shanklin, is now a graduate of The National Fire Academy Fire Prevention for High-Risk Populations: Age and Disability Factors class. Kari has been developing partnerships with both of the senior centers within our service area and this curriculum is design to provide additional tools and teaching aides.

BC James Syring graduated in July from the National Fire Academy's Executive Fire Officer Program. This is a four-year program that is designed to provide senior officers and others in key leadership roles with the understanding of the need to transform fire and emergency services organizations from being reactive to proactive with an emphasis on leadership development, prevention and risk-reduction.

National Night Out

The "26th Annual National Night Out" on August 4, 2009, involved citizens, fire service agencies, law enforcement agencies, civic groups, businesses, neighborhood organizations and local officials. This event is designed to heighten crime and drug prevention awareness; generate support for, and participation in local anticrime programs; and strengthen neighborhood spirit. Many of the neighborhood groups in the area held gatherings with a variety of events for members to enjoy and provided an opportunity for neighbors to get acquainted.

Clackamas Fire District #1 is always involved in this incredible event. Our firefighters, battalion chiefs, division chiefs and volunteers attended many

Clackamas Fire District #1 Newsletter

neighborhood gatherings throughout the Fire District, including many events in Happy Valley, Oregon City, Oak Grove and Milwaukie. These appearances give the citizens a chance to get up close and see many different types of firefighting apparatus. The firefighters answer many questions from how the Fire District operates, to how to prevent a fire in your home and why are fire engines red. Our community fire stations are very involved in their neighborhoods and citizens should know they can come by and visit anytime.

Volunteer Recruiting Campaign Successful!

The recruiting effort for new volunteers for Fire District #1 ended on August 15th, 2009 and resulted in a District record of 104 applications received! These applicants will now begin a competitive process to narrow down the list to 30 volunteer recruits to begin the Support Volunteer Academy in January 2010. This will increase the number of Volunteers in the Volunteer Services Division for Fire District #1 from 40 members to 70 total members.

The recruiting campaign included the updating of the Fire District's Volunteer Division website, the publication of a volunteer opportunities brochure and a full-page advertisement and article in both the Clackamas Review and Oregon City News. It also included the attendance of many volunteers at community events including the City of Happy Valley's 4th of July event and the National Night Out event on August 4th.

The next step in the process will be a mandatory meeting on Saturday, September 12th, for all those who passed the initial application process. After that, additional processes will take place including oral board interviews, physical ability testing, background checks and physical exams. The top 30 candidates successfully completing all steps will be invited to attend the Support Academy in January 2010. The Support Academy will include volunteers wishing to serve in all three of the specialty service categories of Rehab/Support Volunteers, Water Tender Operator Volunteers and Suppression Firefighter Volunteers. Those that wish to serve in the latter two specialties will attend subsequent academies following the support academy.

Thank you to all Fire District volunteers and personnel who helped make the recruiting drive successful and for the many members of our community who are seeking opportunities to serve! Please contact the Volunteer Services Division at 503-742-2670 if you have any questions.

Citizen Feedback/Community Thank Yous

A citizen called and expressed his gratitude to the Engine 9 crew from the Holcomb Fire Station. They responded to a call at his residence in Oregon City on August 9th because he had fallen. He called to compliment the crew for the excellent job they did. He said they took great care of him and he was very impressed. He wanted to be sure that they were recognized for their efforts and even asked that, if possible, something be placed in each of their files recognizing them for their great work and professionalism. The crew that responded to the call was Lieutenant Doug Damm, Apparatus Operator Neil Bishop and Firefighter Jamen Lahodny. Good work!

Program Highlight – Wildland Fires and Defensible Space

During the summer months, another type of fire danger rears its ugly head, which are the "wildland" fires. Here in Clackamas County, there is an abundance of vegetation that can be very dangerous for our firefighters and for the citizens we serve once the weather turns hot and dry. We respond to calls that vary in size from small bark dust fires to acres of burning fir trees on forested land. These "wildland" fires require special training and different types of equipment to extinguish. Clackamas Fire District #1 is prepared to handle this unique form of firefighting. We

Clackamas Fire District #1 Newsletter

train several times a year on the tactics and strategies used to safely extinguish these fires and keep them from spreading and causing more damage. All of our rural fire stations and several of our suburban fire stations have "ready to roll" brush units housed alongside the normal responding fire engine. These "brush units" are built on a 4x4 truck chassis, which allows them to get into areas a normal fire engine could not reach. They are equipped with a 100 gallon per minute pump, 200 gallons of water and 10 gallons of foam retardant. It also has a cadre' of tools designed to assist firefighters battle these often stubborn blazes.

There are many precautions you can take that will lower your risk of having a "wildland" fire on or near your home and property. The best way to do this is by creating an effective "defensible space" around your home. Homeowners can maintain a fire break by removing and clearing away all flammable and other combustible growth within 30 feet of the structure or home. This accomplishes three objectives. First, if your home is on fire, it helps keep the fire from spreading to nearby homes or causing a "wildland" fire. Second, if a "wildland" fire creeps near your home, it will have less of a chance of reaching your home and igniting it. Third, it will allow firefighters to safely work in an area that they can properly protect and save buildings without facing unacceptable risk to their lives.

These "rules" work very effectively in rural areas and if you live in a suburban area, using these as guidelines and keeping vegetation to a minimum, will certainly go a long way in protecting your family and your home.

Preparing a House for a Wildland Fire Season

1. Remove dead or overhanging branches. During the windy conditions that exist during a wildland fire, flames, sparks and firebrands could travel from the tree to the roof of this structure.
2. Remove leaf accumulation from your yard. Leaf accumulation provides fuel for a wildland fire.
3. Remove leaf clutter from your roof and gutters. During a wildland fire, leaves on the roof and/or in the gutters could be ignited by flying embers.

August 25, 2009

Clackamas Fire District #1 Newsletter

4. Remove tall, dry grasses. Tall, dry grasses provide a path for fire that can lead directly to a house.
5. Remove "ladder fuels." Prune tree limbs so the lowest is between 6 feet to 10 feet from the ground. Fire burning through tall, dry grass could ignite these limbs and climb to the top of the tree with relative ease.
6. Check your generator and/or hose to be sure it is in good repair. Refuel garden equipment carefully. Yard equipment needs annual maintenance and proper fueling. Hoses develop leaks and deteriorate with age and exposure. During wildland fire season, fuel your lawn mower properly --away from dry, flammable grasses.
7. Prune bushes and shrubs regularly. Remove excess growth as well as dead leaves and branches to decrease their flammability and the threat they could pose during a wildland fire.

Dispose of cuttings and debris promptly, according to local regulations.

LOCAL STATION ACTIVITIES

See Station Summary

Clackamas Fire District #1 Station Summary Reports – July 2009

Station 1 – Town Center Fire Station

- Station 1 conducted several engine tours while out in the community.
- Conducted attended various public relation events in the community.

July

Total Number of Responses for Station 1 in July = 200

Number of Medical Aid Calls = 127

Number of Fires = 8

Other = 65

Mutual aid given - 0

Mutual aid received - 3

Station 2 – Milwaukie Fire Station

- Station 2 provided blood pressure checks at Hillside Manor.
- Conducted four fire station and engine tours.
- Attended the Milwaukie Festival Daze and Fireworks Celebration.
- Installed one smoke detector.

July

Total Number of Responses for Station 2 in July = 179

Number of Medical Aid Calls = 113

Number of Fires = 11

Other = 55

Mutual aid given - 1

Mutual aid received - 4

Station 3 – Oak Lodge Fire Station

- Station 3 installed six smoke detectors in residences during July.

July

Total Number of Responses for Station 3 in July = 265

Number of Medical Aid Calls = 212

Number of Fires = 29

Other = 24

Mutual aid given - 0

Mutual aid received - 9

Station 4 – Lake Road Fire Station

- Station 4 conducted a station tour for one adult and four children.
- Conducted a public relations event at the fire station.

July

Total Number of Responses for Station 4 in July = 148

Number of Medical Aid Calls = 93

Number of Fires = 7

Other = 48

Mutual aid given - 0

Mutual aid received - 1

Station 5 - Mt. Scott Fire Station

- Station 5 attended a bicycle rally at Clackamas Town Center REI.

July

Total Number of Responses for Station 5 in July = 148

Number of Medical Aid Calls = 89

Number of Fires = 15

Other = 44

Mutual aid given - 4

Mutual aid received - 1

Station 6 - Happy Valley Fire Station

- Station 6 participated in Safety Town at Sunnyside Elementary School.
- Participated in public relation events at Happy Valley Park, Abundant Life Church, Sunnyside Montessori and Sunnyside Learning Tree.
- Hosted three station tours.
- Provided five blood pressure checks.

July

Total Number of Responses for Station 6 in July = 89

Number of Medical Aid Calls = 56

Number of Fires = 8

Other = 25

Mutual aid given - 2

Mutual aid received - 1

Station 7 – Pleasant Valley Fire Station

- Station 7 attended a “Damascus Days” event at Boring Fire District Station 149.
- Toured the grand opening of the new Happy Valley softball field complex.
- Pre-planned the annual “Pick-A-Thon Bluegrass Festival” held near Hagen Rd.

July

Total Number of Responses for Station 7 in July = 29

Number of Medical Aid Calls = 11

Number of Fires =6

Other = 12

Mutual aid given - 19

Mutual aid received - 3

Station 8 - Clackamas Fire Station

- Station 8 participated in a public safety video with Boat 8.
- Participated in several news broadcasts highlighting the dangers of local water ways and promoting water safety.
- Participated in the birthday party at Happy Valley Park for a one-year old child that Engine 8’s crew help deliver before the mother could reach the hospital.

July

Total Number of Responses for Station 8 in July = 137

Number of Medical Aid Calls = 73

Number of Fires = 15

Other = 49

Mutual aid given - 11

Mutual aid received – 3

Station 9 - Holcomb Fire Station

- Station 9 provided a ride-a-long for a C-COM dispatcher.
- Completed target hazard tour of Holcomb Grade School.
- Hosted Holcomb/Outlook CPO meeting in fire station.
- Opened front hydrant for neighborhood kids (media coverage by KOIN-6).

July

Total Number of Responses for Station 9 in July = 99

Number of Medical Aid Calls = 42

Number of Fires = 8

Other = 49

Mutual aid given - 4
Mutual aid received - 1

Station 10 - Beavercreek Fire Station

- Station 10 installed three address signs.

July

Total Number of Responses for Station 10 in July = 52

Number of Medical Aid Calls = 26

Number of Fires = 13

Other = 13

Mutual aid given - 2

Mutual aid received - 0

Station 11 - Redland Fire Station

- Station 11 installed two 100/100 signs.
- Conducted one tour.

July

Total Number of Responses for Station 11 in July = 43

Number of Medical Aid Calls = 20

Number of Fires = 4

Other = 19

Mutual aid given - 1

Mutual aid received - 0

Station 12 – Logan Fire Station

July

Total Number of Responses for Station 12 in July = 39

Number of Medical Aid Calls = 13

Number of Fires = 20

Other = 16

Mutual aid given - 0

Mutual aid received - 0

Station 13 – Clarkes Fire Station

July

Total Number of Responses for Station 13 in July = 3

Number of Medical Aid Calls = 3

Number of Fires = 0

Other = 0

Mutual aid given – 0

Mutual aid received – 3

Station 15 - John Adams Fire Station

- Station 15 conducted three station tours for 29 people.

July

Total Number of Responses for Station 15 in July = 160

Number of Medical Aid Calls = 99

Number of Fires = 25

Other = 36

Mutual aid given - 9

Mutual aid received - 2

Station 16 - Hilltop Fire Station

- Station 16 assisted Chief Kirchhofer with cooking dinner for a family at the station. This event was to help celebrate birthday #6 for one of the family members.
- Attended the Beaver Creek Telephone Company's annual community picnic.
- Attended a public relations event at the local Oregon City Fred Meyer store.
- For each of three days hosted a newly hired Oregon City Police Dept. Officer for an eight-hour ride-along with E16. This was a great opportunity to develop relationships with police officers we will work with in the future.

July

Total Number of Responses for Station 16 in July = 152

Number of Medical Aid Calls = 105

Number of Fires = 3

Other = 44

Mutual aid given - 0

Mutual aid received - 2

Station 17 – South End Station

July

Total Number of Responses for Station 17 in July = 85

Number of Medical Aid Calls = 43

Number of Fires = 26 fire-related

Other = 16

Mutual aid given - 5

Mutual aid received – 0
