Summer is finally just around the corner and Clackamas Fire District #1 wants to make sure you are safe. Here are a number of fire and life safety tips and links to additional information found on the Fire District’s website:

- Use extreme caution swimming and boating - Local rivers and waterways are still very cold, the water is moving very fast and rivers may be filled with hazardous debris. Always wear a lifejacket. Never swim alone and swim in supervised areas only. For more information, please visit: [http://clackamasfire.com/wp-content/uploads/2017/04/Water-Safety-Message.pdf](http://clackamasfire.com/wp-content/uploads/2017/04/Water-Safety-Message.pdf)

- Recreational and Campfires – Vegetation has been growing at a significant rate due to a very wet spring and warming temperatures. As grasses, trees, and shrubs dry out, they become very flammable. Please use caution when enjoying a recreational or campfire and please learn more about back yard burning at: [http://clackamasfire.com/wp-content/uploads/2016/12/Open-Burning-Guidelines.pdf](http://clackamasfire.com/wp-content/uploads/2016/12/Open-Burning-Guidelines.pdf)

- Use extreme caution with fireworks – Follow the three Be’s: Be Prepared before lighting a firework, Be Safe when lighting fireworks, and Be Responsible after lighting fireworks. Remember to use legal fireworks only. More information regarding the three Be’s can be found at: [http://clackamasfire.com/wp-content/uploads/2017/04/Fireworks-Protect-Your-Family.pdf](http://clackamasfire.com/wp-content/uploads/2017/04/Fireworks-Protect-Your-Family.pdf)

These are just a few examples of calls for help we receive and easy steps you and your family can take to make sure you have a safe and healthy summer. Please visit us at: [www.clackamasfire.com](http://www.clackamasfire.com) for more information or stop by any one of our community Fire Stations.

### Damascus Station 19 Update

On Sunday, April 16, 2017, firefighters at Damascus Fire Station 19 responded to a first alarm fire at their very own fire station. Firefighters quickly removed the fire apparatus and began attacking the fire. There were no injuries to crews and the damage was contained to the attic space and apparatus bay.

Damage was minimal, but the fire station is closed from use by the Fire District and the community. Contingency plans are already in place to begin to repair the fire station and return it to operational status. Emergency response to the Damascus area will not be affected. Crews have been relocated to the Eagle Creek Station 18.

Currently, a contractor has been selected and is under contract. Additionally, the following work and repairs have been completed:

- A bid for repairs to pre-loss condition, to include exterior upgrades requested by the Fire District.
- Removal of all damaged interior.
- Major systems and appliances have been tested for damages and operability.
- Electrical replacement will be the first phase to be completed.
Message from the Board of Directors

On May 15, 2017, Clackamas Fire District #1’s Board of Directors held several meetings prior to the regular board meeting. The first was a work session where staff discussed an intergovernmental agreement (IGA) for the provision of fleet maintenance services between the Fire District and Lake Oswego Fire Department. This was followed by a joint meeting of the Fire District’s Board of Directors and the Local Public Contract Review Board to discuss the use of Emerick Construction for construction projects for Stations 16 and 19.

The following took place at the May 15, 2017 regular Board of Directors’ meeting:

The Board approved the following:

- Proclamation #17-02—Designating the Week of June 18-27, 2017 as Safety and Health Week.
- Resolution #17-03—Authorizing the Fire District to Purchase Bonds in 2017.
- An IGA with Lake Oswego Fire Department for Clackamas Fire District #1 to provide fleet maintenance services.
- Funds to replace, repair and reseal asphalt at various District facilities.
- Funds for exterior painting of fire stations.

Safety/Public Education

Application for Hearing Impaired Smoke Alarm Giveaway

Clackamas Fire District #1 received a grant from the Federal Emergency Management Administration (FEMA) for the Apartment Inspection Program. A section of the grant is for the purchase of hearing impaired smoke alarms for eligible residents of Clackamas Fire District #1 living in multi-family housing. Multi-family housing is considered any building with three or more units, to include attached condominiums and townhouses that receive annual inspections from the Fire District. These plug-in/battery back-up strobe smoke alarms are being offered to people with qualified disabilities under the Americans with Disabilities Act, specifically those who are deaf or hard of hearing. These smoke alarms are available only to residents living inside the response area of Clackamas Fire District #1, who live in multi-family housing and who submit the required application and certificate of eligibility. A wait list will be created for qualified residents not living in multi-family housing for any smoke alarms that remain unclaimed after July 15, 2017.

There are a limited number of these specialized smoke alarms that will be given to eligible residents, upon receiving the required application and certification of eligibility paperwork. Once all the hearing impaired smoke alarms are distributed, no additional smoke alarms will be purchased. The paperwork must be received no later than 4:00 pm on July 15, 2017.

The hearing impaired smoke alarms will not be given out to apartment owners or managers. These hearing impaired smoke alarms will become the property of the person or the approved applicant and are not to be used in lieu of the apartment owner’s requirement to provide working smoke alarms under state law or the requirements of the state building or fire codes.

Paperwork needed to apply for the smoke alarm giveaway:

1. Fill out the online application form, available at www.clackamasfire.com, under Latest News on the main page, click Hearing Impaired Smoke Alarm Giveaway, and submit to either the Oak Grove Fire Station, 2930 SE Oak Grove Blvd., Milwaukie, OR 97267; or the Administration Office, 11300 SE Fuller Rd., Milwaukie, OR 97222.
2. A certification of eligibility is required from the applicant’s physician or medical professional. The form can be found at www.clackamasfire.com, under Latest News, click Hearing Impaired Smoke Alarm Giveaway, and submit the signed form by email, the Oak Grove Fire Station, or the Administration Office.

If you have questions regarding the program, contact the Fire Prevention office at 503.742.2660 or email Deputy Fire Marshal/Lieutenant Valere Liljefelt at valere.liljefelt@clackamasfire.com.
Health and Safety

Food Allergies, Sensitivities and Intolerances – What’s the Difference?

Migraines. Eczema. Sinus issues. Diarrhea. Constipation. Muscle pain. What do these symptoms have in common? They are all forms of inflammation and most are reactions to foods or chemicals found in foods or the environment. But it is an allergy, a sensitivity or an intolerance? These words are often used interchangeably, but are not the same thing. Some may be potentially life-threatening, while others are just chronic nuisance. How do you know which one it is and what you can do about it?

Food Allergy

A food allergy is an immune-system reaction to a specific protein found in a food. The immune system sees the protein as a foreign invader and mounts a defense by producing antibodies to fight it. Symptoms occur quickly after consuming the food and can be life-threatening, as in an anaphylactic reaction to peanuts, and even a small amount of food can trigger a reaction. Other symptoms include headache, stomach pain, swelling, itching, and sneezing. Some allergies can be treated with an over-the-counter antihistamine, while others require a self-injected shot of epinephrine. The eight most common food allergens include peanuts, tree nuts, wheat, eggs, shell fish, fish, dairy and soy. Strict avoidance of the known allergen is recommended.

Food Sensitivity

Although food sensitivities can have the same symptoms as food allergies – digestive reactions, sinus troubles, muscle pain, headaches, rashes – they also include brain fog, sleep disturbances and urinary issues, and can also play a role in fertility. Food sensitivity reactions are not life-threatening, but do contribute to the chronic complaints of many people. Both irritable bowel syndrome (IBS) and migraines are linked to food sensitivities and show tremendous resolution when the dietary culprits are identified and the proper nutrition program is followed, which allows the body’s inflammation to subside and symptoms to abate. The onset of symptoms is often delayed, appearing as little as a few hours to as much as 72 hours after consumption of a trigger food. Unlike a food allergy, food sensitivities are not an immune reaction. The cell responds to the trigger food by producing mediators, like histamine, which cause the symptoms. Some food sensitivities are dose-related, meaning you might be able to have a small amount of the food before a reaction is triggered.

Food Intolerance

More common than food allergies are food intolerances, the most well-known of which is lactose intolerance. Marked by digestive symptoms, such as gas, bloating and diarrhea, lactose intolerance is caused by the lack of the enzyme lactase, which is necessary for the body to digest lactose, the sugar found in dairy products. Some individuals with lactose intolerance may be able to tolerate a small amount of dairy products or only certain forms of dairy without experiencing any symptoms. Lactose-free dairy products are available, and lactose supplements, if taken before eating a dairy product, can help reduce or eliminate any symptoms.

If you suffer from digestive woes, sinus congestion, skin rashes, migraines, brain fog or muscle and joint pain, it could be caused by one or more foods that you are eating. Even perfectly healthy foods can potentially be the culprit for the inflammation that’s at the root of your symptoms. A physician or registered dietitian nutritionist who specializes in food allergies and sensitivities can help you figure out your trigger foods and craft the appropriate food plan to help heal your body.

Employee Highlights

Fire Inspector Rich Stenhouse

I began working for Clackamas Fire District #1 (CFD) on March 1, 2017 as a Fire Inspector. I was born and raised in Portland, Oregon following after my father’s profession into the fire service. After high school, I attended Portland Community College receiving my associate degree in 1984. While in college, I participated in the sleeper programs in West Linn and Happy Valley Fire District #65. I was hired on at Corvallis Fire in 1985. In 1986 I was hired at Portland Fire where I served in both the Fire Marshal’s Office (FMO) and the Emergency Operations Division. During my FMO time, I spent 12 years as a certified police officer and fire investigator. In 2008, I was promoted to Battalion Chief and returned to the Fire Operations Division until my retirement in June of 2016. Prior to retirement, I finished by bachelor’s degree in fire administration at Eastern Oregon University.

My wife, Patty, and I have three adult children and became grandparents for the second time in March. They currently live in the Damascus area. My hobbies include travelling, camping, and work on my kids' small hobby farm. I am looking forward to learning and growing in this new position to better protect the line firefighters and citizens protected by CFD.

Administrative Assistant Stephanie Walker

I began working for Clackamas Fire District #1 in early April of this year. I've always made it a point to go the extra mile, because it makes people so happy. Working for the public, I get to do that every day! I am the only girl, and the baby in my family. I have five older brothers, which means I've got a slew of nieces and nephews. I spend a majority of my time with my boyfriend, his 8-year-old son, and our two dorky dogs (though you should ask to see pictures of my zoo sometime). I'm not involved in anything special at the moment, but the people closest to me won't hesitate to let you know that I'm always knee deep in projects. Most recently, I've jumped back into school full-time (Heaven only knows why I thought I had time for that). I enjoy spending time with my family. I drag my dad out to walk with me once a week, and make it a point to meet up with anyone that's not busy for our "Sunday Family Dinners." My nieces and nephews are involved in athletics and I try to see as many soccer, basketball, football, and dance competitions as possible! When I surprise myself and leave a gap in my plans, my favorite place to be is in the sunshine with a book in my hands. Poolside is a plus.

Fire District Receives New Self-Contained Breathing Apparatus with Bond Funds

Written by Captain Rob Rector

Throughout the months of April and May, Clackamas Fire has received the new MSA G1 Self-Contained Breathing Apparatus (SCBA).

Prior to being placed into service on the fire apparatus, the SCBA have to first be tested by our certified SCBA Technicians and then our Firefighters have to be trained on how the SCBA functions.

Training consists of user orientation in the classroom, and then a series of training exercises. These training exercises will simulate various fire ground activities and are designed to allow the firefighter to become familiar and comfortable on the use of the new SCBAs.
Community Outreach

Memorial Day Service at Mt. View Cemetery

The local community and surrounding areas were invited to the Mountain View Cemetery’s Memorial Day Commemorative Service in tribute to veterans and other public servants.

The event was scheduled for 10:00 am on Monday, May 29, 2017 at the Mountain View Cemetery in Oregon City. This year’s annual event featured guest speaker retired Navy Lieutenant Commander JJ Morell, a member of the Veterans of Foreign Wars (VFW) Three Rivers Post #1324, which helped with the laying of the wreaths.

This year’s event had a 21-gun salute and other military honors and floral tributes, Oregon City High School Junior ROTC, with music provided by Gardiner Middle School and Grand View Baptist Church bands. Clackamas Fire staff and crews participated at the event in remembrance of George Mead, who died in the line of duty with the former Oregon City Fire Department. In honor of the fallen firefighter, a bugler from the 234th Army Band played taps, had a 21-gun salute, and a fireman’s hat was placed on the gravesite.

After the event, attendees were invited to join VFW Post #1324, 104 Tumwater Street, Oregon City, for an open house from noon to 5:00 pm to see memorabilia tables from WWII to present, visit with veterans, and take a tour of the post.

Clackamas Fire Attended the Fire Department Instructor’s Conference

Written by Lt. Dan Mulick

In April, the Fire District sent Captain Nick Browne and Lieutenants Mark Corless and Dan Mulick to Indianapolis, Indiana for the Fire Department Instructor’s Conference (FDIC). The three of us would like to thank the Training Division for supporting and funding this opportunity. We were among 34,000 firefighters from around the world, made up of 58 countries and nearly 800 Exhibitors. This trip provided two days of hands-on training and three days of conferences given by the industries best. Our own FF Justin McWilliams was among the instructors, which is an outstanding privilege in itself. FF McWilliams taught “Primary Search, Making the Grab.” This was a phenomenal class that was attended by 240 students in two days.

After participating in hands-on training and sitting through multiple days of lectures, it was obvious that our organization is taking the right path on the fire ground. Instructors preached aggressive fire attack with big water, aggressive ventilation, and getting in early for the primary search. Thanks, again, to the Fire District for funding this training. It was a great experience.

Pictured above, from left to right: Lt. Mark Corless, FF Justin McWilliams, Capt. Nick Browne, and Lt. Dan Mulick.
What is it?
Written by FF Dave Doornink

Recently, the Clackamas Fire website went through a major overhaul. The goal was to create a new website that was more user-friendly, up-to-date and consistent with best practices for today’s government websites. FF Dave Doornink, a former web designer, worked closely with PIO Steve Hoffeditz, PIO Administrative Technician Tracey Grisham and personnel from every division within the Fire District to create the new site. On April 1, 2017 the new website officially launched.

The new site makes it easy to find some of the most requested information sought by citizens regarding Clackamas Fire District #1. They include:

- Daily Burn Information is now easy to find even on a cell phone.
- Easily request fire reports, submit business information, send a compliment to a crew or request a fire station tour or fire engine appearance.
- Stay up-to-date on the latest news, bond updates, and Fire District events.
- Much more!

Visit our website today at www.clackamasfire.com and let us know what you think!

Emergency Management

Creating your Family Emergency Communication Plan starts with one simple question: “What if?”

“What if something happens and I’m not with my family?” “Will I be able to reach them?” “How will I know they are safe?” “How can I let them know I’m okay?” During a disaster, you will need to send and receive information from your family. Communication networks, such as mobile phones and computers that could be unreliable during disasters and the electricity could be disrupted. Planning in advance will help ensure that all the members of your household – including children and people with disabilities and others with access and functional needs, as well as outside caregivers – know how to reach each other and where to meet up in an emergency. Planning starts with three easy steps:

Collect
Create a paper copy of the contact information for your family and other important people/offices, such as medical facilities, doctors, schools, or service providers.

Share
Make sure everyone carries a copy in his or her backpack, purse, or wallet. If you complete your Family Emergency Communication Plan online at ready.gov/make-a-plan, you can print it onto a wallet-sized card. You should also post a copy in a central location in your home, such as your refrigerator or family bulletin board.

Practice
Have regular household meetings to review and practice your plan.
Join us at California Pizza Kitchen for a flavorful FUNdraising event!

Just bring in this flyer, present it to your server, and 20% of your check will be donated to our organization. Purchases include dine-in, take-out, catering and alcoholic beverages!

Fundraiser in support of:
Clackamas Emergency Services Foundation
June 19 to June 25, 2017 (All Day)

California Pizza Kitchen
Clackamas Town Center •
11840 SE 82nd Ave, Happy Valley
(Next to Sears)
503-659-0760

Go to cpk.com to view our pizzas, pastas, salads, appetizers & desserts. You can even order online!

Join the CPK Adventure Club at cpk.com and receive $5 off your next visit!

Eligible groups include non-profit schools and 501c organizations. Donation amount excludes proceeds from tax, gratuity, gift card and retail purchases. Valid for dine-in, take-out, online orders, catering or curbside service. Alcoholic beverages included. Not valid on delivery. Event proceeds void if flyers are distributed in or near the restaurant. Manager, please attach this flyer to the guest check.
Upcoming Events

**Summer Meal Programs**

Promoting summer meal sites within the communities we serve is one of the most important things Clackamas Fire can do to ensure that no child goes hungry this summer. The more parents, children, and teenagers know about where sites are located, the more children will come to eat. The Summer Food Service Program ensures that low-income children continue to receive nutritious meals when school is not in session.

To find a nearby summer meal site within North Clackamas School District, visit their website at:

http://www.nclack.k12.or.us/nutrition/page/summer-food-program.

To find a nearby summer meal site within Oregon City School District, visit their website at:

Clackamas Fire is planning on participating in Summer Meal programs with both school districts. Be on the look out for our Fire Prevention staff and our Firefighter crews throughout the summer.

**Touch-a-Truck at Oregon City Library**

The Youth Summer Reading program at the Oregon City Library began on June 1 and there’s still time to sign-up your kiddos. Visit the library between June 1 and July 28 to pick up your registration packet and a free book.

Kids and teens who read at least 25 minutes a day in 25 days earn extra goodies, including $0.25 towards the library’s community butterfly garden. You can turn in up to three reading logs and one bingo cards.

Have you ever wanted to get up close and personal with a fire truck? You’re in luck! On Monday, June 19 from 10:00 am to 12:00 pm, is the Touch-a-Truck event at the Oregon City Library Park, 606 John Adams, Oregon City, where you’ll get a chance to see a fire truck up close for a meet and greet.

**Fire Prevention**

April 2017

**Date:** 4/1/2017 12:39:19 AM  
**Address:** 10672 SE 78th Ave. Milwaukie, OR 97222  
**Investigator(s):** Hamilton  
**Type of Fire:** Building Fire  
**Fire Area of Origin:** Bedroom - < 5 persons  
**Fire Cause:** Unintentional  
**Estimated Dollar Loss:** $19,500  
**Investigator Narrative:** After a thorough investigation, I concluded the fire originated in the bedroom of the homeowner’s son. The point of origin was near the northeast corner of the room. The cause of the fire was undetermined, as there were multiple probabilities that could not be ruled out.
Fire Prevention (cont.)

Date: 4/9/2017 8:11:43 AM
Address:  581 Holmes Ln. Oregon City, OR 97045
Investigator(s): Hamilton
Type of Fire: Building Fire
Fire Area of Origin: Bedroom - < 5 persons
Fire Cause: Act of nature
Estimated Dollar Loss: $11,700
Investigator Narrative: After a thorough investigation, I concluded the fire originated in the front, upstairs bedroom. The point of origin was at the head of the bed on the top of the headboard. The cause of the fire was an unattended candle placed there by the seven-year-old grandson. This fire was ruled accidental.

Date: 4/9/2017 8:13:06 AM
Address:  11606 SE Meadowgold Place, Clackamas, OR 97015
Investigator(s): Dahlgren
Type of Fire: Building Fire
Fire Area of Origin: Bathroom, checkroom, lavatory, locker room
Fire Cause: Cause under investigation
Estimated Dollar Loss: $50,500
Investigator Narrative: This fire started in the attic above an upstairs bathroom. The area of origin was at the ceiling exhaust fan. The cause was a mechanical failure in the exhaust fan, which produced enough heat to ignite the wood framing in the attic. This fire was classified as accidental.

Date: 4/9/2017 3:10:58 PM
Address:  592 Holmes Ln. Oregon City, OR 97045
Investigator(s): Hamilton
Type of Fire: Building Fire
Fire Area of Origin: Cooking area, kitchen
Fire Cause: Unintentional
Estimated Dollar Loss: $60,000
Investigator Narrative: After a thorough investigation, I concluded the fire originated in the kitchen. The point of origin was on or near the kitchen stove. The cause of the fire was undetermined, as there were multiple probabilities that could not be ruled out.

Date: 4/16/2017 7:32:07 AM
Address:  20100 SE Hwy 212. Damascus, OR 97089
Investigator(s): McGladrey
Type of Fire: Building Fire
Fire Area of Origin: Attic: vacant, crawl space above top story, cupola
Fire Cause: Failure of equipment or heat source
Estimated Dollar Loss: $350,000
Investigator Narrative: The report was unavailable.

Date: 4/19/2017 8:55:54 PM
Address:  12101 SE 82nd Ave. Happy Valley, OR 97086
Investigator(s): Olson
Type of Fire: Fire, other
Fire Area of Origin: Assembly area - less than 100 persons
Fire Cause: Intentional
Estimated Dollar Loss: $7,500
Investigator Narrative: The suspect intentionally set fire to a customer inside the Denny's Restaurant. According to surveillance footage, the suspect used a 12-ounce plastic bottle filled with a flammable liquid. It's currently unknown what condition the victim was in at that time.
