To Safely Protect and Preserve Life and Property

January 2020

As Fire Chief of Clackamas Fire District #1, I want to recognize the commitment of care, compassion, dedication, and professionalism that all of our staff, career, volunteer personnel, and elected officials demonstrate every day. This commitment allows us to deliver the highest quality fire and life safety services to the community, citizens, and businesses we serve. All of our professionals make sure the community is safe, but they go above and beyond this commitment by advocating for and supporting efforts to also make sure the community is healthy, livable, and enriching to all. They unselfishly provide basic necessities in the form of food, clothing, and toys during the holidays to those in need. They do not do it because it is a requirement of the job, but because they have chosen a profession that focuses on making a difference in the communities we serve both on and off the job. As Fire Chief, I will continue to support, encourage, and enhance those programs and activities that make our organization truly exceptional.

Clackamas Fire District #1 is unique in many ways. We are unique because of the formation of the organization - a combination of small, community-based fire departments closely connected to their respective communities who, when annexed or merged into a larger organization, have managed to maintain that community connection. This community-based approach has not only established a culture of very close ties between the Fire District and the community, but it has instilled in our personnel the importance of understanding the services required by all individuals.

Fred Charlton

Fire Chief

Clackamas Fire District #1

INTRODUCTION

Beginning in 1998 and every few years thereafter, the Fire District has reviewed and updated its strategic business plan. This year the Fire District has not only carefully evaluated and updated its strategic planning document, but it has also reviewed and updated the process used to make that planning document useful to Fire District personnel and to the community we serve. Those changes involved significant Fire District input, and also provided structure to the document to take advantage of clearly-focused objectives. As such, this living, dynamic document allows frequent updates as objectives are met and goals are accomplished.

This year, in addition to long-term goals, the Fire District has identified the most important short-term objectives, critical tasks needed to meet those objectives, timelines, and has committed to completing those during the upcoming year.

If you are a member of the Fire District—career or volunteer firefighter, staff or Board Director—this document will provide guidance for the major and even minor initiatives that the Fire District is pursuing during the next year. Your understanding and support of these initiatives is critical to the Fire District. If you are a citizen or member of the community, this document memorializes our goals for the future and our efforts to make improvements to our programs and the services we provide.

Clackamas Fire District #1 was established as the result of a series of mergers, consolidations, and annexations that took place during the last four decades. Prior to 1933, cities were not authorized to provide fire protection outside of their geopolitical boundaries. Therefore, outside of city limits, there was little or no fire protection. In the 1930s, the Oregon Legislature authorized the formation of Rural Fire Protection Districts to provide services in unincorporated areas.

To Safely Protect and Preserve Life and Property

Unprotected gaps were called Fire Management Zones and were served by counties. A number of these zones existed in Clackamas County until 1974 when the county exited the fire protection business. The commissioners formed Clackamas Fire District #54 in the area surrounding Oregon City to take some of those responsibilities.

In the northern part of the county, around the City of Milwaukie, a similar process was ongoing. Milwaukie Fire Protection District #56 served the area surrounding the City of Milwaukie and north into Multnomah County. Together with Multnomah County Fire District #12, the agencies served an area that extended up to 82nd Avenue and Division in

unincorporated Multnomah County. However, aggressive annexations by cities during the early 1970s forced both agencies to evaluate their options. In 1976, what remained of the two districts merged and formed Clackamas County Fire District #1, most commonly referred to as Clackamas Fire District #1.

Yet, city annexations continued—forcing other fire districts to merge to preserve service levels. In 1988, Happy Valley Fire District #65, Clackamas Fire District #71 and Clackamas Fire District #54 merged and within two years consolidated their services further by joining with Clackamas Fire District #1. The new fire agency was now large enough to provide expanded service levels and to provide the expanded scope of services with the economies of scale typical of modern fire agencies.

In the early 1990s, Clackamas Fire District #1 merged with Beavercreek Fire District #55.

During the next decade, it merged with Oak Lodge Fire District #51 and Clarkes Fire District #68 and began providing services by contract to the City of Milwaukie and the City of Oregon City.

In 2000, Clackamas Fire District #1 proudly became an Internationally Accredited

Organization. Accreditation is a comprehensive self-assessment and evaluation model that enables organizations to examine past, current, and future service levels and internal performance and compare them to industry best practices. This process leads to improved service delivery. The Center for Public Safety Excellence's (CPSE) Accreditation Program, administered by the Commission on Fire Accreditation International (CFAI) allows fire and emergency service agencies to compare their performance to industry best practices in order to:

- Determine community risk and safety needs and develop community specific Standards of Cover.

To Safely Protect and Preserve Life and Property

- Evaluate the performance of the department.
- Establish a method for achieving continuous organizational improvement.

The CFAI accreditation process provides a well-defined, internationally-recognized benchmark system to measure the quality of fire and emergency services. Clackamas Fire District #1 completes a comprehensive re-accreditation process every five years to maintain our accredited agency status. The Fire District was most recently accredited in August 2015.

In 2005, the Fire District held an election to annex the territories within the City of Milwaukie, followed by a 2007 election to annex the City of Oregon City into Clackamas Fire District #1. Both of those annexation elections passed by significant margins.

In 2014, the Board of Directors for Clackamas Fire District #1 and Boring Fire District #59 unanimously approved a contract for services in which Clackamas Fire provided fire protection, fire prevention, and emergency services to the citizens of Boring Fire District through a five-year contract for service. In November 2016, voters within both Fire Districts approved a legal integration in the form of an annexation of Boring Fire District #59 into Clackamas Fire District #1. That annexation was finalized in February 2017.

The Fire District protects more than \$23 billion in assessed value comprised of a mix of industrial, commercial, and residential properties. In 2019, per the Clackamas County Tax Assessors' Office, there were 57,229 residential properties and 2,010 commercial properties within the Fire District boundary. Approximately 280 career firefighters and administrative personnel oversee the efforts of the Fire District. In addition, a cadre of more than 80 community volunteer firefighters assist with firefighting efforts and provide assistance with many of the Fire District's auxiliary services. In total, the Fire District protects over 225 square miles— with 21 community fire stations serving nearly 235,000 permanent residents. Our service area encompasses four cities including Happy Valley, Johnson City, Milwaukie and Oregon City, as well as the unincorporated areas of Barton, Beavercreek, Boring, Carus, Carver, Central Point, Clackamas, Clarkes, Damascus, Eagle Creek, Holcomb, Oak Lodge, Redland, South End, Sunnyside and Westwood.

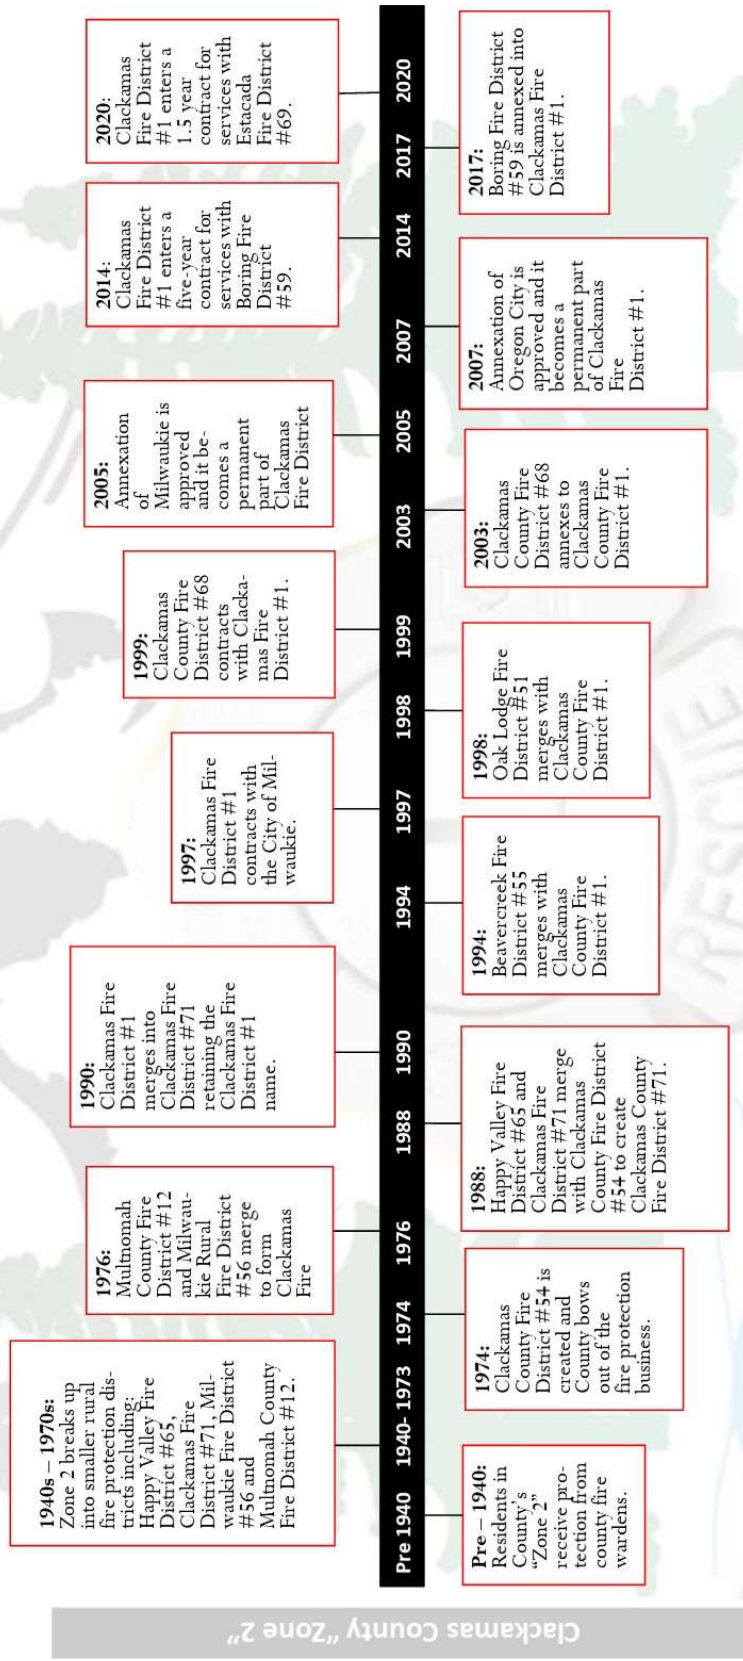

In January 2020, the Fire District entered into an 18-month Intergovernmental Agreement in the form of a Contract for Service to Estacada Fire District #69. Estacada Fire protects 78 square miles and 15,000 residents from two community fire stations.

To Safely Protect and Preserve Life and Property

In the last decade, the Fire District has experienced rapid population and construction growth rates. Those rates are expected to increase as buildable residential property and suitable industrial land are being developed. The Fire District must plan for additional increases

as the more suburban and rural areas are urbanized and the population centers become more densely populated through infill and increased regional planning efforts.

DEVELOPING GOALS AND OBJECTIVES

The Fire District began a year-long process in late 2008 to develop its goals and objectives. In doing so, those goals and objectives were created in the context of environmental factors that are placing continuing pressure on the Fire District. Public expectations are increasing while financial and other resources are flattening or even declining. Impacts of these changes are being felt across the nation as the effectiveness of our public safety systems strain against the pressure. The nation's first responders are constantly being challenged to be more efficient while maintaining their effectiveness. Clackamas Fire District #1 is no different.

With these issues in mind, the Fire District developed a process to gain the values and perspectives of three distinct groups: the local community, the Fire District's elected officials, and the staff (including volunteers and paid personnel) of the Fire District. As part of the process, the Fire District contracted with an outside firm to facilitate the planning efforts. The three-pronged, Customer Centered Strategic Planning (CCSP) process, is a product of that consultation.

Each of the three planning groups provided input into the process based on their understanding of the Fire District's direction and upon that group's values. From this input, the Fire District originally developed and continually evaluates its 14 Organizational Goals, and from those goals each of the organization's divisions and workgroups have developed objectives. In 2014 at the Fire District's annual Strategic Planning Retreat, career personnel, volunteers and staff evaluated the Fire District's mission, vision, values and goals. The original 14 goals were condensed to the nine that were used through 2018. In early 2019, the Board of Directors were presented the current nine goals that included a number of changes and updates as a result of a number of strategic planning meetings.

While public expectations and limited resources may make it difficult to accomplish specific goals and objectives, in order to be more efficient with available resources the Fire District set the organization's goals and objectives based on constructive efforts while eliminating programs that do not serve the customer.

The Fire District's Board of Directors is a critical component of the strategic business plan. The Board's commitment to fund the plan elements and to monitor progress toward the plan's accomplishments is instrumental. The Board participated in several facilitated organizational value processes and public work sessions. A number of the Board members participated in the community processes and they did and continue to act as the community's representatives in the long-term direction of the Fire District.

To Safely Protect and Preserve Life and Property

Implementing and Updating the Goals and Objectives

The Executive Team establishes the priorities and objectives for each Organizational Goal and establishes methods to ensure that the objectives can be accomplished. Those methods include structuring assignments that would not create difficult burdens on a single individual or division, yet also ensure that the assignments are allocated to the person or position having both the capability and the capacity to ensure that the priorities can be accomplished. In addition, the Executive Team makes assignments and provides guidance to develop additional competencies in Fire District personnel.

Twice each year, Fire District staff reviews and updates the Strategic Plan. Each review will encompass an overview of the action plans from the previous review and accomplishments toward achieving the goals and objectives described in these plans. Next, staff will consider the current list of objectives and remove those that are no longer valid; add others that may be more important given the then current political, economic, and legal environments; or change the action plans to reflect the current conditions.

Every five years, the Fire District will review its mission, vision, values, guiding principles and goals. Those factors will be updated as appropriate and will be accompanied by a new list of appropriate goals and objectives for the future.

MISSION, VALUES, VISION

The Fire District has adopted strategic planning elements based on the input of the community, the Board of Directors, and the Fire District's internal strategic planning group. From that process, the Fire District developed the mission, values and vision that established organizational direction. Every three to five years, the Fire District reviews its' Mission, Values, and Vision statements to ensure they clearly reflect the direction the Fire District is headed.

Our Mission

The mission statement of the Fire District is designed to clearly define, in simple terms, what services that are provided to the community, and it focuses Fire District members on what is truly important. The mission statement is posted prominently throughout the Fire District's facilities. The current Mission statement is:

To Safely Protect and Preserve Life and Property

To Safely Protect and Preserve Life and Property

Our Values

The values are the guiding principles of Clackamas Fire District #1 shared throughout the organization. These values describe the Fire District's culture and core beliefs and provide a cultural foundation for all personnel as well as describe actions that are the living enactment of the fundamentals held by individuals within the Fire District. The current Values are:

Guide our actions with integrity, courage, respect, and accountability

Anticipate and respond to the needs of our community

Communicate effectively and share knowledge

Inspire leadership and develop leaders

Model excellence in safety, health, and wellness

Promote public education and public engagement

Be fiscally responsible

Our Vision

The vision statements describe the Fire District's inspiration and model for the future state of affairs. This is the description of where the Fire District expects to be in the future—providing members with a view of the future that can be shared, a clear sense of direction, a mobilization of energy, and gives a sense of being engaged in something important. The vision statements developed by the Fire District incorporate the will of citizens; the purposeful thought of our employees and volunteers; and the intent of the governing body. The following vision statements have been adopted by Clackamas Fire District #1:

To maintain accredited agency status

To utilize technology to enhance service delivery

To dedicate ourselves to continuous improvement

To continue to pursue alternate funding strategies

To minimize our environmental impact

To encourage involvement, innovation, and creativity

ORGANIZATIONAL GOALS

The Fire District has established nine goals, each of which is based on the input provided by the Board of Directors, the community, and the staff. The Board reviewed and adopted these goals in 2019 and the management team and staff created objectives for each goal. These goals articulate the Fire District's direction for the next three to five years and beyond and are not in order of importance, but rather reflect all of the work the Fire District will be focusing on to support the Mission, Values and Vision statements.

To Safely Protect and Preserve Life and Property

The nine goals are:

1. **Maintain accredited agency status**
2. **Reduce the number and consequence of fire**
3. **Improve outcomes in emergency incidents**
4. **Assemble, retain and develop a highly-trained, healthy, and dedicated workforce reflective of the community we serve**
5. **Prepare ourselves and the community for disasters**
6. **Communicate effectively**
7. **Continue to strengthen our relationships with our strategic partners**
8. **Provide exceptional customer service**
9. **Implement management practices to ensure financial and operational sustainability**

Following the development of the goals, division managers developed specific objectives to accomplish one or more of these goals. These objectives were accompanied by specific, measurable outcomes by which the organization could evaluate the progress toward delivery of a final product.

S U M M A R Y

While creating a long-term business plan is critical in many ways, the plan must also provide the organization with focus—a clearly designed narrow set of objectives that can be accomplished in the short term. As part of its planning process, the Fire District developed a method to concentrate its efforts on just a few important objectives. These focused plans provide direction to the Fire District and its staff about how to proceed.

The Strategic Business Plan for Clackamas Fire District #1 is a "living" document not intended to be placed on a shelf, rather it is designed to be referenced for guidance on a regular basis. This document articulates the goals and objectives of the organization and provides a pathway to complete tasks in a timely manner.

Each year the Fire District engages staff in addressing emerging issues facing the communities we serve and the services we provide. The input and ideas gathered from planning sessions are used to develop the next set of goals, objectives, and tasks we must focus on to ensure Clackamas Fire District #1 continues “*To Safely Protect and Preserve Life and Property.*”
