

# Clackamas Fire District #1

March 10, 2020

Dear Community Member:

Due to the increased and growing number of potential and confirmed cases of Coronavirus (COVID-19) in Oregon and in the region, Clackamas Fire District #1 will be taking proactive steps to reduce any unnecessary exposure to our community, firefighters, paramedics, staff and volunteers. We are taking these additional precautionary measures to help reduce the risk of exposure and community spread of this virus. Effective Wednesday March 11, 2020 the following will occur for the next 30 days:

- Suspend all use of fire station community meeting rooms by outside organizations and members of the public
- Suspend all community fire station and apparatus tours
- Suspend all non-emergency appearances by our first responders to community meetings and events to include neighborhood associations and community planning organizations

The health and safety of our community and first responders is our top priority as we continue to learn more and address the specific needs of the Coronavirus (COVID-19). We fully recognize that this is an inconvenience and appreciate your understanding. We will continue to evaluate these precautions weekly and look forward to seeing you and your group soon.

For updates and information on the Coronavirus (COVID-19), please visit the Oregon Health Authority's website and/or Clackamas County Public Health which are listed below.

**Oregon Health Authority-** <https://www.oregon.gov/oha/pages/index.aspx>

**Clackamas County Public Health-** <https://www.clackamas.us/alert>

If you have any questions or concerns, please contact Clackamas Fire's Public Information Officer Brandon Paxton at 503-742-2693.

Stay Safe,

A handwritten signature in black ink, appearing to read 'Fred Charlton', enclosed in a circular scribble.
